

YP Day at the Capitol

**Tuesday,
March 11,
2008**

10:00–5:00

**1st floor Rotunda
– EAST wing of
the Iowa Capitol
Building**

Young Professionals will have the opportunity to connect with legislators, be informed on what is happening at the Capitol, network with other young professionals from across the state and showcase their community and YP organization. All organizations are invited to join, regardless of your size or your level of political involvement. Additionally, all young professionals from throughout Iowa are encouraged to attend, whether you will be representing your organization or simply as a young professional living in Iowa. The purpose is to advocate for “Young Professionals”. This is our opportunity to really show the level of involvement and impact YPs have on our communities.

YPIowa is a 501(c)3 non profit organization, and can not take a stand on any issue. However, we can pass on the different sides of the issue and let our members speak for themselves. This day is an opportunity for each of you to meet with those that represent you, ask them questions and to make sure they know what you are accomplishing in the community you share as your home.

- Showcase your community to state legislators
- Lunch featuring Generation Iowa Commission - Governor Culver invited
- Meeting with Legislators from your area & “How to Lobby” workshop
- Social/networking event

Young Professionals attend this event to showcase your community and showcase your successes to our local legislators!
